

NECKLACE SIZE GUIDE

Option 1

Disclaimer: The reference as shown in figure is as per medium size body. Length may vary slightly for petite and plus size individual

14" Necklace

Women Fits most like a choker

16" Necklace

Women Falls perfectly around the base of the neck like a collar. On a petite woman it will hit your collarbone while for plus size women it might feel more like a choker.

18" Necklace

Women A common choice for women that will fall just below the throat at the collarbone. This length is popular for adding pendants which will hang over a crew neck.

Men A shorter length that falls just around the base of the neck. Popular for beaded necklaces so they can sit above a crew neck t-shirt.

20" Necklace

Women Will fall a few inches below the collarbone and allow a little more breathing room. Perfect for a low, plunging neckline or if you want to wear it over a turtleneck.

Men A common length for men which falls right at the collarbone. Pendants will hide under a crew neck or show completely with a low v-neck or unbuttoned dress shirt.

22" Necklace

Women Falls at or above a low neckline.

Men Falls a few inches below a collar bone and can be worn over or under a shirt. This is a common length for chains because they offer more breathing room.

24" Necklace

Women Falls below any neckline.

Men Extra long and is commonly used to keep religious or meaningful pendants under the shirt and closer to the heart. Falls just above the sternum.

36" Necklace

Women Common with pearl strands and will hang below the bosom. They can be worn as a single strand or you can double them for an 18 inch necklace.

Option 2

If you already have a necklace whose length you like, you can measure it to help determine which size to choose. There are two ways to measure a necklace

You'll need:

- Tape measure or ruler
- A necklace you like

Option 1:

Measure Full Length

Lay the necklace down on a flat surface in a straight line. Measure it from one end of the clasp to the other and note down the length.

Option 2:

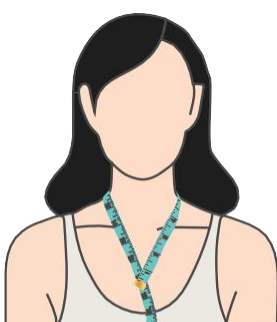

Measure When Closed

With the necklace clasp closed, lay it down on a flat surface and measure its length from end to end. Next, double that measurement and note it down.

If you don't have a necklace to use as reference, you can use a tape measure or a piece of string to determine the perfect length.

You'll need:

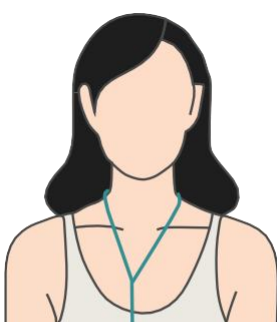

- Tape measure or ruler
- String
- Pen or a marker

Option 1:

Use Flexible Tape Measure

Place the flexible tape measure around your neck like a necklace, adjust it to the desired length, and note down the measurement.

Option 2:

Use a String

Place a piece of string around your neck like a necklace, adjust it to the desired length, and mark where the string ends meet with a pen or a marker. Next, measure the string and note the length.

Chain Length (in)	Chain Length (cm)
1	2.54
